L. & N. Grows Liberal.

The Louisville & Nashville R. R. Co. have notified the directors of the recently completed hospital in Paris that they would contribute \$500. toward the institution and that the amount would be immediately available. The gift was presented through Sup't W. H. Anderson.

"Lou" On The Job

Mr. L. C. Hopper left Monday for Danville where he will again be connected with the Danville Tobacco Warehouse Co. in the capacity of book keeper. There is not a better book keeper in Kentucky than Lou Hopper and he is sure to see that the people of his native county get a square deal when they take their crops to his house.

Bad Wreck Near Paris.

On last Friday night fast train No. 32, Knoxville to Cincinnati ran through an open switch near Paris. The engine ran against a tree and was demolished the baggage car was wrecked and the first two coaches badly injured. Engineer Lemon of Covington was killed and his fireman badly bruised and scalded and the baggage master and one of the porters were badly bruised. The passengers escaped without injury.

Changes In Residence.

Mrs. Elizabeth Joseph and sons have taken rooms at Mr. Samuel Cotton's on Lexington Street and Dr. William Burnett is occupying as a residence the rooms vacated by Mrs. Joseph; Mrs. Hallie Dunlap has moved from her temporary residence at Mrs. Margaret Marksburg's to the residence which she recently purchased of J. M. Logan on Lexington street and Mr. W. F. Champ is moving to the property recently purchased by him on Water street from Bro. Tindler and Mr. John Holtzclaw is moving into property being vacated by Mr. Champ.

Tobacco Coming In.

The Lancaster Tobacco Warehouse is open for business and several small crops have already been received. Mr. Jake Grau who was with Mr. Speith here last year, has arrived from Louisville and will be here during the season in the capacity of Assistant Manager. Both Mr. Speith and Mr. Grau are well known to the growers of Garrard county and are very popular. The light showers of last week made it possible to strip out a few small crops, but the majority of the raisers are giving their attention to other branches of farm labor and are waiting a good rain before attempting to handle their tobacco.

Colored Teachers Association.

The colored Teachers Association of Boyle and Garrard counties will hold a session in Lancaster on next Saturday November 16th. An interesting programme has been prepared.

Dean.

Mrs. Bertha Dean Wife of Mr. Millard Dean of the Bryansville section died very suddenly last Friday evening. Coroner Jones was summoned and empaneled a jury who found that she died of cerebral apoplexy. Mrs. Dean was a native of Kansas. She is survived by her husband and two small children. The remains were interred at the Fork cemetery Sunday afternoon.

Confederate Pensioners Being Allowed.

The State Pension Board is in session at Frankfort and Agent Stone has prepared a select list of 610 names of those who are thought to be in most urgent need of relief and this list will be passed upon first, taking them in alphabetical order. Among those already passed upon appears the name of Squire Geo. P. Bright of Stanford. The board will continue in session until all applications are passed upon.

A Big Stake.

The Montgomery County Fair Association of Mt. Sterling Ky. has inaugurated what they call the "Kentucky Special Suckling Colt Stake". They offer \$3500. in premiums, divided into twenty monies, and is for 1913 foals. Nominations are eligible now and the stake closes Jan. 1, 1913. This is the largest single colt stake ever offered and the cost of entry is only \$10.00. Some of our Garrard county horsemen should make entries. Application blanks may be had by writing to W. Hoffman Wood, Mt. Sterling Ky.

Who's Who?

That is what all of the Eighth District office seekers would like to know. Just at present Stanford seems to be the Mecca of those who would partake of the pie allotted to this district. They go over to "pay their respects" to Congressman Harvey Helm. However, it is a much mooted question in the minds of many people as to just who is going to have the dispensation of the patronage in this neck of the woods, whether it will be Congressman Helm, Senator James or whether President Wilson himself will do the dispensing. Unless this question is settled, it will be hard to predict just who has the best chance.

Election Returns Canvassed.

The County Board of Election Commissioners met on last Friday afternoon and canvassed the returns of Garrard county. The result shows the following vote: Wilson 1232, Roosevelt 1054, Taft 478 For Congress Helm 1239, Dinsmore 1011; For Judge Court of Appeals Judge John D. Carroll 1231 and for Commonwealth's Attorney Puryear received 1232 votes. In the National race the prohibition ticket received 19 votes in the county, the Socialistic labor ticket 7 and the socialist ticket 1. The board is composed of Judge L. L. Walker, republican Mr. J. F. Robinson and sheriff Geo T. Ballard democratic.

Dolan To Get New Trial.

Thomas F. Dolan who was recently convicted of voluntary manslaughter in the Fayette Circuit Court for the killing of Patrick Mooney a hotel keeper, has been granted a new trial by Judge Kerr. The judge bases his opinion in setting aside the finding of the jury in the recent trial upon an alleged improper remark made by one of the jury. The trial in which Dolan was convicted was his fourth trial, three trials the juries failing to agree and the fourth he was convicted by a jury summoned from Jessamine county. L. D. Shearer, formerly of this place gave evidence as to the improper remark alleged; to have been made by one of the jurymen.

Camden Not A Candidate.

Hon. Johnson N. Camden of Versailles, who as Chairman of the State Campaign Committee did such splendid work in the recent campaign and whose efforts were in a great measure instrumental in bringing about the splendid democratic victory in Kentucky, will not be a candidate for United States Senator to succeed Senator Bradley, for Governor nor for any other office. In answer to a question propounded to him by a Courier Journal representative, he had the following to say:

"I am not a candidate, and, what is more, I do not intend to be a candidate for United States Senator or any other office in the gift of the people," he said.

"You can make that just as strong as you want to. I have no ambition along that line. I would not exchange my life on a Kentucky farm for any official mansion."

"Furthermore," continued Mr. Camden, "among those who doubtless will be candidates I have no preference. Gov. McCreary and former Gov. Beckham seem to be probable entries in the race, while Congressman Stanley and former Congressman David Smith loom large as dark horses. They are all good Democrats and actively supported the Democratic ticket in the last campaign. May the best man win. I have no choice."

Look Out, Game Warden Means Business.

Agent Quincy Ward of the new Fish and Game Commission has issued warrants against several citizens of Chilesburg in Fayette county, charging them with killing rabbits out of season, he is said to have been aided by detectives sent there for the purpose. He has also taken out nineteen warrants against the Phoenix Hotel Co. charging them with having quail in their possession for sale. The hotel people claim the quail came from Indiana and that they did not know they were violating the law in serving them.

Mr. Ward seems to mean business and he should have the moral support of every true sportsman in the state in his efforts to uphold the game laws and to give back to the state the fish streams and game preserves which have so long been a joke.

Caught Red Handed.

Chief of Police Herron received information on last Saturday that some white men, ostensibly horse traders, were engaged in selling liquor about town, upon investigation he found they had left in the direction of Stanford; he pursued them and when in the vicinity of the Fair grounds he came upon a local colored man with a freshly purchased pint of whiskey, which he said he purchased from the suspected parties, pursuing investigation a little further he came upon the men whom he arrested and found in their possession four quarts of whiskey. Using the colored man as a witness he brought the men to town and took them before Judge Harris who fined them \$40. and costs. They gave their names as Jim McClanahan, who claimed to live near Mt. Sterling and Richard Bailey, who did not lay claim to a permanent residence.

Fair Warning.

The open season for the killing of quail begins today, BUT conditions are not as they always were, everyone indiscriminately cannot go out and kill everything in sight just because it is open season. The formalities of the law must be complied with, you must secure a license, this is a mere matter of form, with a small expense attached to it, it is true, but far better to incur this small expense than have some stranger accost you in the field and demand to see your license, and when you are unable to produce it, arrest you, bring you before the county court and have you fined; or probably take your name and have the next grand jury indict you. This is exactly what is liable to happen, for Agent Ward has his emissaries at work all over the state, many of them known only to himself, and verily the way of those who violate the fish and game laws from now on will find it rough sledding. Get your license and keep it with you.

The Faithful Of Garrard County Not Behind Those Of Neighboring Counties

In Their Anxiety To Partake Of The Soon To Be

Cut Pie.

Pie has been fed to the politicians from time immemorial, but for many years it has been confined to the republicans, the democrats having to content themselves with less dainty diet. But after sixteen years they are again eligible at the counter and the faithful democrats of Garrard county are making their demands, all with more or less certainty of success.

Col. T. B. Robinson will, we understand, be an applicant for the Collectorship at Danville to succeed Winston Wiseman. If several of our exchanges be correct, Mr. Robinson will have to contend with Messrs Logan Wood, Col. R. G. Evans, Judge Chas. R. McDowell of Danville, Editor Shelton Sautley of Stanford, Frank Ripley of Lawrenceburg and Paul Goddard of Harrodsburg and John B. Nichols of Danville, all of whom are prominently mentioned for the place.

Among the announced applicants for the Lancaster post office are Messrs Joe. R. Mount, E. P. Brown and Judge M. D. Hughes. Any of these gentlemen would prove acceptable to the patrons of the office.

Mr. Mount is the senior member of the firm of J. R. Mount, Son & Co. hardware dealers, and is a clever gentleman. He was Chairman of the County Campaign Committee and to him is due a great measure of the success of the Wilson ticket in the county. Mr. Mount is an "original Wilson man", and has been prominent in democratic politics in the county for several years.

"Eph. "Brown needs no introduction to the people of Garrard county, everyone who has ever visited Stormes' drug store knows him. He is an affable, accommodating and deserving young man and not wholly unacquainted with the duties of a postmaster, having served as assistant postmaster under the Cleveland administration.

We gave a brief mention of Judge Hughes in the last issue of the Record. As for clever "Tommy" Robinson, there is scarcely a person in the county that is unacquainted with him, and he has assisted in the fighting of the democratic battles in Garrard county for so long that he will have the unanimous backing of his own county for the office he seeks.

The American people shrink instinctively at the mention of war, not from fear, for they are admittedly the best soldiers in the world, but because of its disturbing influence, because they prefer peace; but if the stern necessity is forced upon them, well, their prowess is a matter of history. So it is in all the walks of life, the dread of a thing is worse than the actual thing itself, the suspense gets on the nerves, the waiting, premonition creates in one's brains things which are almost impossible, and thus the prelude to the occurrence is distorted until it is far worse than the actual occurrence itself.

Mr. Underwood and other democratic leaders are proclaiming the necessity for a special session of the new democratic congress for the downward revision of the tariff, and for the consideration of other important measures. Now let us see, who can call an extra session of congress? Why the president and he alone has that power.

that he proposes to be a good listener, to give the matter long and careful consideration, but further than that he declines to vouchsafe any information on the subject. All of which but strengthens us in our belief that we have elected to the presidency an unusually able man and one whom we believe will make us an ideal president.

In the meantime, the president-elect will hie himself "far from the madding crowd", on board the yacht of a friend he has sailed for the Bermuda islands, where he will recuperate from the strenuousness of the recent campaign, and innocently hide himself from the horde of office hunters.

Let's Beautify The Town.

Contractor Moynahan has completed the massive pillars which are to be the foundation for the water tower; they are made of concrete, set six feet in the ground and six feet in diameter and seem as solid as the rock of Gibraltar. The steel frame work that is to go on the top of this foundation together with the tank proper will be over all 166 feet in height, towering 56 feet higher than the cupola of the court house.

There should be some manner of light on the top of this structure, and it has been suggested that a revolving electric sign be placed there, upon which should be inscribed "Lancaster, The Land Of Now". This sign could be seen for a distance of many miles. The question may arise, "why should this be done?", and the ready answer is because advertising pays, and surely a town and county with the limitless resources which we have should be advertised. People many miles distant seeing this sign would naturally be struck with the inclination to want to see Lancaster, the town that had gone to such trouble and expense to mark its location. Then when they come, let us have something to please their eyes, let us make it worth their while to come. Beautify the town; let the good ladies have their own sweet way with the park, and we guarantee they will make of it a thing of beauty. Then in the matter of lighting, the town could surely be lighted in a much more efficient, and surely in a more artistic manner than the present last century manner in vogue. Several merchants around the square have expressed their willingness to erect new and modern light stands at their own expense, these stands to have ornamental as well as highly efficient clusters of lights. Let others follow in their lead and we will have one of the prettiest little towns in the country. Next, what about those concrete walks about the square, are they to be built, and when? The city is surely doing its part toward improving the town, all is being done that the means at their disposal will permit; they are making every effort to give us an inexhaustible supply of good pure water, they are putting the streets in the very best possible condition, they are making every effort to make Lancaster a law abiding town, and in fact are making every possible effort, and are actually giving us an ideal administration. Now it behooves the citizens themselves to imitate some of this spirit of progress, to do something on their own account to add to the beauty and progressiveness of the town. Everywhere about the town new and modern houses are going up, premises are being beautified and the residence streets fast putting on a metropolitan appearance. Let's get busy on the square and keep pace with the improvements in progress all about us. Co-operation is all that is necessary, everybody pull together, the cost will not fall heavily on any individual, everyone paying his part and doing his part, the expense to each one will be nominal. See how much our splendid school system has benefited the town, think how much more benefit is to accrue from the increased school facilities which we are soon to enjoy. Let your business house and its surroundings be in keeping with the spirit of progress, make it attractive, and thereby profit will not only accrue to the town from a standpoint of attractiveness, but an individual profit will accrue to you, both from the enhancing of the value of your property and the increase in the volume of your business.

Our old gimlet eyed friend Smith Urton, of Pollard, Ky., paid this office a call last Monday. We knew this man when he was in hard times, but he tells us that he is today on the shady side of easy street, having recently inherited an enormous sum of money. One can well believe it, for when he paid up his subscription arrears to the Record he flashed a roll of greenbacks as big as two dollars worth of lettuce. This dazzling monetary outburst, sudden and unexpected, astounded and blinded the entire office force. No man was ever more liberal with his money than Smith Urton. He states that he will shortly come into the undisputed and lawful possession of something like one hundred and ninety thousand dollars as an additional inheritance, and that he expects then to tour the entire United States in a high power motor car, accompanied by a coterie of dashing sports as dead game as he himself is.

19th Annual Meeting Of National Fox Hunters Association In Session At Crab Orchard.

The Nineteenth Annual Meeting of the National Fox Hunters Association opened at Crab Orchard Springs on Monday morning under auspicious circumstances and bids fair to be the most successful meet in the history of the organization. Over 200 guests from all over the United States and Canada are registered and the attendance is swelled by as many more who journey there from day to day from adjoining counties. The finest array of dogs and horses ever gathered together on a like occasion are there. All of the Garrard county hunters are there with their dogs and are sure to come away with their share of the honors of the meeting. Hayden Leavell of Lancaster has been chosen as one of the Judges of the meeting. The opening of the bird season today (Friday) will furnish additional sport for the guests in attendance, as the country around Crab Orchard abounds with rabbits and birds. The social features are being given marked attention this season, the annual hog taking place on Wednesday evening. Manager Willis of the Springs hotel is doing his utmost to make everyone feel at home and to insure the comfort of his guests.

Information For Federal Pensioners.

On January 31, 1913 the various pension agencies throughout the United States will be abolished, and beginning with Feb. 4th, 1913 the pensioners will be paid by check sent direct to them from Washington D. C. They will not have to go through the formality of executing a voucher as heretofore, except in cases where they are sent penalty envelopes, that is upon the receipt of his November check, if the pensioner is sent a penalty envelope as has been the custom heretofore, he will execute his voucher as he has always done and forward it to the pension office, but if he receives only his check, and no envelope, he will not have to execute a voucher before he receives his Feb. check. However, all pension certificates must be carefully preserved, as, upon the receipt of your check it will be necessary for two witnesses to endorse upon the back of it that the certificate has been exhibited to them, before you can have the check cashed. In the event the certificate is lost, pensioners must make application to the Commissioner of Pensions for a new one before time for the sending out of checks. Postmasters are not allowed to forward letters containing pension checks. These checks will be sent to the last known address of pensioner, and in the event you want your pension check sent to a new address, notice of the new address should be given the Commissioner of Pensions Washington D. C. Such notices of change of address should give the pensioners name, old address, the new address to which he desires his check sent, the number of his certificate and the law under which his pension was granted. The new manner of paying pensions will do away with the necessity of pensioners paying a fee to local officers for executing their vouchers.

Opening Sales Postponed.

The Danville tobacco warehouses have announced their first sales of the 1912-1913 season for next Thursday November 21st.

PROF. M. D. HUGHES, a fine gentleman and a Democrat in all, that the word means, is an applicant for postmaster of Lancaster. He would fill the bill admirably and there are thousands of friends of the elegant old "wheel horse of Democracy," who would like to have President-elect Wilson appoint him when the Democrats come into their own. —Richmond Climax.

Thanksgiving.

President Taft, Gov. McCreary and the governors of the various states have issued their usual annual proclamation setting Thursday November 28th as Thanksgiving day. In view of the peace and plenty which holds sway in the land, the occasion this year should be celebrated with more than usual solemnity.

Worthy Colored People Wed.

Prof. Joseph H. Burns and Elizabeth Pelman were made man and wife by Rev. Silas Crawford on Thursday evening. The groom is the efficient principal of the local colored school and the bride is the daughter of Joseph Pelman, and both are highly respected colored people.

Marksbury-Newman.

Lexington papers give notice of the marriage of Mr. W. I. Marksbury and Miss M. E. Newman, which took place in the Parsonage of Calvary Baptist church, Rev. T. C. Ecton officiating. The brides homes is at Forks of Elkhorn Ky., while the groom is the son of Mr. W. D. Marksbury of the Marcellus locality and was born and reared in Garrard county.

Turkey's Scarce.

The near approach of Thanksgiving brings to mind the fact that the turkey crop in Garrard county is unusually short and the birds are backward and a goodly per cent of them will not be on the market until late. No buyers are as yet in the field, with the exception of Mr. Northrott, who is buying all that are brought to him. The prevailing price in adjoining counties where they seem to be more plentiful, seems to be from 12 to 12-1/2 cents on foot.

Ralston-Ralston.

On Tuesday Mr. James P. Ralston secured license and on the same day at the Baptist Parsonage was married to Mrs. Mattie F. Ralston, Rev Bush officiating. The bride is 37 years of age and is the widow of the late Harvey Ralston, who was a brother of the groom, and is a daughter of Mr. W. P. Anderson of the White Lick section of this county. The groom lives in the same neighborhood and is a son of the late W. I. Ralston and is a highly respected and thrifty young farmer.

Mr. Hudson's Condition Unimproved.

The condition of Mr. B. F. Hudson shows no improvement, and while there is no immediate cause for alarm, yet he is a very sick man. He is suffering with neuralgic pains and extreme nervousness, and is confined to his bed and has a nurse in attendance. Mr. Hudson is one of the pioneer business men of the community, and one of the most highly respected and influential citizens of the county, and his host of friends are sorely grieved at his illness and hope for his speedy recovery.

Thanksgiving Proclamation By The Governor Of Kentucky, 1912

FRANKFORT, KY., Nov. 12.—Governor James B. McCreary today issued the following Thanksgiving Day proclamation: "With love and veneration, we should offer praise and thanks to God for the manifold blessings conferred upon us, and unite in earnest supplication for their continuance. The year now drawing to a close has been conspicuous and notable. Our Republic has been at peace with the whole world; our State has had rich harvests, productive industries, happy and contented people; abundance at

home and over-flowing markets; law and order have been preserved; the glorious heritage of self government has not been impaired but strengthened; and wherever we may look or whatever we may think, we have abundant cause for satisfaction and for gratitude to God.

"Wherefore, I, James B. McCreary, Governor of the Commonwealth of Kentucky, designate Thursday, the twenty-eighth day of November, nineteen hundred and twelve, as Thanksgiving Day, and call upon all the people of Kentucky to give thanks and praise to God for the blessings He has conferred upon us, and to humbly beseech a continuance of His great mercies.

"In testimony whereof, I have caused these letters to be made patent, and the seal of the Commonwealth of Kentucky to be hereunto affixed. Done at Frankfort, the twelfth day of November, in the year of Our Lord one thousand nine hundred and twelve and in the one hundred and twenty-first year of the Commonwealth.

"JAMES B. MCCREARY,
"By the Governor,
"C. F. CRECELIOUS,
"Secretary of State.
"By W. L. GEIGER,
"Assistant Secretary of State."

WITH THE MOVIES.

Freedom, represented by a beautiful girl attired in classic draperies, shrieked when Kosciuszki fell. "Don't strain your lungs," said the man who was operating the picture machine. "If you simply move your lips we'll get all the effect we need." The boy stood on the burning deck. "Don't stand like a wooden Indian," yelled the man at the machine. "I dunno where the management finds all these bum hams." A soldier of the legion lay dying at Algiers. "One minute to change the reel," bawled the operator. "Keep your pose. That won't give you time to smoke no cigarette."

Just as Easy!

The child of the professional humorist was gazing at a lump of ice, from which vapor was rising. "See, father!" cried the child. "Even the ice is hot." "Well, run out into the pantry and you can see the ice-cooler," replied the professional humorist, carefully making a note on his cuff.—Lippincott's.

POP PLAYED POKER.

So To It.

Quit your grumbling and boo-hoing! Face the fight with courage stout; It's the man who's up and doing Who is never down and out.

Earning His Fee.

Breathlessly he rushed into the lawyer's office. "My next door neighbor is learning to play the cornet," he exclaimed. "The man is a public nuisance. What would you advise me to do?" "Learn to play the trombone," replied the astute lawyer. "Ten dollars, please."

The Trouble.

"Why were you absent from school yesterday, Grace?" asked the teacher. "Please, teacher, my mummy was sick." The teacher, who is afraid of contagion, asked: "What is the matter with her?" "What does the doctor say it is?" "Please, teacher, he says it's a boy." —Harper's Magazine.

Hogwallow News.

In life everybody seems to be wanting a reserved seat for the price of a general admission ticket.

Washington Hooks' hound dawg went to church last Sunday, but went out before preaching was over.

Sidney Hooks has contracted the habit of whistling in his sleep. He is a fine whistler and regrets that he is never awake to hear it himself.

Dock Hooks, the tonsorialist, wishes to let his customers understand that while he makes a specialty of shaving necks, he never talks behind a man's back.

Luke Mathews has purchased himself a new pocketbook to keep his money in, but is in a worse fix than before, as he had to spend all he had for the pocketbook.

Since the killing frost a few nights ago Sim Flinders has begun a search through the tall weeds at the back of the postoffice for a mule that got lost last summer.

A mule was left hitched at the postoffice the other morning, and remains uncalled for. The postmaster says it is not called for in ten days he will forward same to Washington.

Mrs. Sim Flinders spent Wednesday at Tickville shopping. She shopped all day on two dollars by buying that amount of goods and then having the storekeeper to take it back.

The Old Miser had potatoes for dinner Sunday. He has been saving them for some time, getting one stuck over the spout of his coal oil can every time he buys oil at the Rye Straw store.

Miss Frutie Allsop played a few appropriate selections on her accordion seated on her front door step a few nights ago just as the moon was rising. She was interrupted only once, and then when a cloud floated between her and the moon.

Poke Eazley is making all necessary arrangements for the construction of a house in the near future on Musket Ridge. In order to get the house just exactly the right size he will lay the floor, then put his family on it, and then build the house around them.

Jefferson Potlocks, who has a strongly developed tendency to take life and many other things as easy as possible, has been overhauling his wagon this week. The hind wheels are made a good deal taller than the ones in front, to enable him to travel down hill the rest of his life.

The postmaster of Hogwallow has woke up to the fact that he has been politically blind for the past twenty years, and on the day after the election announced where all could hear him that he had had a change of heart in politics, and would from now on be a full-fledged Democrat.

A red rag was observed floating from the end of a tobacco stick stuck in a stump near Rye Straw Monday morning. This was a signal that a quart of lick was hid in the stump for somebody, but Tobe Moseley must of found it, as he had the rag tied around his head Tuesday morning.

The Excelsior Fiddling Band have been practicing every night for the past three weeks for a magic lantern show that is to be given at the Wild Onion school house the last of next week. Fit Smith, who lives near the scene of the disturbance, was compelled to drink a quart of Moonshine Reel the other night to drown the noise.

It is more difficult to write a thing than it is to get up and speak it. The public speaker does not have to handle his commas and semi-colons; neither does he have to make paragraphs in his talk, unless it is at that point where he stops to take a drink or suck a lemon. That is one heavy about writing; you don't necessarily have to stop and suck a sour old lemon.

The steps leading into the Wild Onion school house were stolen a few nights ago. The deputy constable was put on the case at once, and has several of our good citizens under suspicion, as he passed a house where a mass meeting on the road question was being held on the night of the crime, and

overheard one of the speakers say that steps should be taken at once to repair a bridge.

The deputy constable and Woodrow Wilson were both elected by overwhelming majorities in Hogwallow and the outlying precincts at Tuesday's election. The deputy, who has had experience in running for office many times before, ran ahead of the presidential ticket in some of the voting precincts. It was rumored before the polls closed that Taft got a vote at the Calf Ribs precinct, but at the hour of going to press this could not be confirmed.

FOR CONSTIPATION

A Medicine that Does Not Cost Anything Unless It Cures.

The active medicinal ingredient of Rexall Orderlies which is odorless, tasteless and colorless is a comparatively new discovery. Combined with other extremely valuable ingredients, it forms a perfect bowel regulator, intestinal invigorator and strengthener. Rexall Orderlies are eaten like candy and are notable for their agreeableness to the palate and gentleness of action. They do not cause griping or any disagreeable effect or inconvenience.

Unlike other preparations for a like purpose, they do not create a habit, but instead they act to overcome the cause of habit acquired through the use of ordinary laxatives cathartics and harsh physic and permanently remove the cause of constipation or irregular bowel action.

We will refund your money without argument if they do not do as we say they will. Two sizes, 25c. and 10c. Sold only at our store—The Rexall Store. R. E. McRoberts & Son.

PREACHERSVILLE.

The mumps scare is about over. Mrs. Carrie Hargis is visiting her sister, Mrs. Logan Thompson.

Miss Eva Merryman, the teacher of Hobbs' school, is boarding with Mrs. J. M. Cress.

Mrs. Marinda Blankenship visited the family of her brother G. Lawrence at Broadhead.

Rev. Cornelius, the pastor of the Baptist church preached last Saturday and Sunday.

Misses Gertrude Adams and Carrie Naylor were recent guests of Misses Lena and Julia Brown.

Mr. John Carpenter of Red Rock, Okla. is here for a visit to his brother, Mr. Samuel Carpenter, before going to Florida where he will spend the winter.

Word comes from Point Leavell that a bouncing 9 lb. son has arrived at the home of Mr. and Mrs. Grover Gastineau. Its mother was formerly Miss Alpha Naylor of this place.

At the business meeting last Saturday, the Baptist brethren organized a Sunday School and prayer meeting. The following officers were elected: Supt., Bro. Carden; assistant, D. M. Anderson; Secretary and Treasurer, W. C. Cummins. The school will convene each Lord's Day at 10 A. M. On each Wednesday evening the prayer meeting services will be held. Let every one attend.

Flagged Train With Shirt.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Alston Raleigh N. C., once prevented a wreck with Electric Bitters. "I was in a terrible plight when I began to use them," he writes, "my stomach, head, back and kidneys were all badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach liver or kidney trouble. Price 50 cents at R. E. McRoberts & Son.

MISS MYRTLE'S STORY

By FLORA DELL.

"Yes, I have had one strange experience," Miss Myrtle smiled reminiscently, as the girls pleaded for a story. "Myrtle, a school chum of mine, wrote for me to visit her at her hotel home in the west, and tired with my social duties, I accepted. On the journey I pictured her in the ordinary country town hotel; antique accommodations, fat, bald-headed proprietor, cold baths from a water pitcher, and sundry other unpleasant features.

"Imagine my amazement on my arrival, after Myrtle's cordial reception, at being received in an exchange all most luxurious in appointment, supplemented by the most up-to-date sleeping apartments, private baths, push buttons and all modern conveniences. I retired early the first night in order to secure a long rest, and be prepared for the pleasure of the next day. I drew a long sigh of comfort as I nestled down between the cool, clean sheets and prepared for a night of sound sleep. I think I had just lost consciousness when I awoke with the sensation that some one was in the room. I was not naturally nervous, but the feeling that now had me in its grip was one of distinct fear. When fairly awake I bounded out of bed, snapped on the electric light and made a hurried survey of the room. With the full return to consciousness I became aware of a soft sound, like deep, regular breathing, a strange, elusive sound, seeming at one minute behind me and the next to come from the center of the room. Completely baffled in my efforts to locate it, I began to think I was the victim of some practical joke, or else suffering from an unusual attack of indigestion. Deciding that the latter was not probable, I went back to bed, determined to finish my rest; but even with an effort to drown the sound by burying my head in the sheets, I could still hear the regular movements, sometimes low and soft, and again seemingly labored and right over the bed, as my fevered imagination clothed it in various impossible shapes.

"I cannot tell how long I lay nervously wakeful, when I suddenly saw a soft ray of light on the window frame, and the sweet twitter of a bird on a tree outside my window appraised me of the approach of dawn, and with other welcome indications of approaching morning I lost the sound and my fear of it and drifted into a heavy sleep.

"The next day I decided to say nothing about my experience, as it might bring ridicule upon me, and I passed a pleasant day with the decision firmly rooted of banishing the whole affair from my mind. I retired after a jolly evening, ready to laugh at my experience of the previous night.

"Whether the subject refused to be dismissed and my mind dwelt unconsciously upon it in my slumbers, I do not know, but about midnight I found myself once more sitting upright in the bed, clutching the bed clothing tightly and listening to the same deep, regular breathing of the night before.

"Once more I brought the electric light into play; once more made a determined detour of the room, when suddenly—was it my imagination, or had the breathing really assumed a different tone? It seemed to be coming in gasps—like the last labored breath of life—it seemed close at my back. I made one leap toward the door—the gasping sounded in my ears.

"With a spasmodic grip I turned the handle and slipped into the wide hall. Myrtle's room was down the corridor, and I flew toward it, but had gone but a short distance when a hand gripped my shoulder, and I fell in an unconscious heap at Myrtle's feet.

"When I came to I was on her bed and she was bathing my face with a refreshing lotion. I remember murmuring, 'What was it?' and then I sank, partly from exhaustion, partly from a sweet sense of security, into a sound sleep, from which I did not awaken until morning.

Miss Myrtle ceased speaking, and for a few moments there was an intense silence. At last the girls asked in chorus: "Aren't you going to tell us what it was?" "Oh," said Miss Myrtle, and a little smile twinkled the corners of her mouth, and an amused twinkle shone in her brown eyes. There was another short silence, and then she said: "Have you ever heard of a water meter?" She laughed softly. "I never had then, but I decided that even if I had been brought up in a city, there were a few things yet to be learned."

"Our Personal Guarantee to all Skin Sufferers" Of Lancaster.

We have been in business in this town for some time, and we are looking to build up trade by always advising our patrons right.

So when we tell you that we have found the eczema remedy and that we stand back of it with the manufacturer's iron clad guarantee, backed by ourselves you can depend upon it that we give our advice not in order to sell a few bottles of medicine to skin sufferers, but because we know how it will help our business if we help our patrons.

We keep in stock and sell, all the well known skin remedies. But we will say this: If you are suffering from any kind of skin trouble, eczema, psoriasis, rash or tetter, we want you to try a full size bottle of D. D. D. Prescription. And, if it does not do the work, this bottle will cost you nothing. You alone to judge.

Again and again we have seen how a few drops of this simple wash applied to the skin, takes away the itch, instantly. And the cures all seem to be permanent.

D. D. D. Prescription made by the D. D. D. Laboratories of Chicago, is composed of thymol, glycerine, oil of wintergreen and other healing, soothing, cooling ingredients. And if you are just crazy with itch, you will feel soothed and cooled, the itch absolutely washed away the moment you applied this D. D. D.

We have made fast friends of more than one family by recommending this remedy to a skin sufferer here and there and we want you to try it now on our positive no-pay guarantee.

IT GROWS HAIR

Here Are Facts We Want You To Prove at Our Risk.

In all our experience with hair tonics there is one that has done more toward gaining our confidence than any other. We really believe this remedy, known as Rexall "93" Hair Tonic is so superior to other preparations that we offer it to you without personal and unqualified promise that if you use it and it doesn't prove every way satisfactory to you, we will, upon your mere request at our store, return to you the money you paid us for it.

Rexall "93" Hair Tonic acts scientifically destroying the germs which are usually responsible for baldness. It acts to penetrate to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet necessity, is delicately perfumed, and will not gum nor permanently stain the hair.

We want you to get a bottle of Rexall "93" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff prevent the hair from falling out and promote an increased growth of hair and in every way give entire satisfaction, come back and tell us, and get your money back. Two sizes. 50c. and \$1.00. Sold only at our store—the Rexall Store. R. E. McRoberts & Son.

Exercising Fowls on Good Days.

Allow the fowls to run out only on fine clear days, during the coldest portion of the winter. They are better off within their quarters most of the time. Keep the front of the houses closer with the muslin curtain most of the time day and night all winter. With it down the quarters are exceedingly light, and all the fresh air required is admitted through it, and all draughts avoided.

Finally, for the best good of the fowls as regard both health and egg production, we advise that at no time during the winter, there be fed any hot mash, as advocated by many. They like such food, but often eating anything of the kind, they suffer so much more from the cold. The best method is to feed abundantly along the line, or after the manner that has been mentioned. Such a course is bound to bring the best results.

MI-O-NA

Banishes Indigestion

Sourness, Fullness, Belching, and all Stomach Misery Disappears in Five Minutes.

"Tried them all," you say, "and not one cured." Well, you haven't tried MI-O-NA Stomach Tablets or you would not be bothered with stomach trouble to-day.

Perhaps you bought a box and took one or two and then let the rest stand, forgotten, in the cupboard.

Make no mistake; if you will take MI-O-NA Stomach Tablets regularly you can forever end all stomach misery and have a stomach as strong and vigorous and as able to digest the heartiest meal as the best stomach in America.

If you suffer from Indigestion, Dyspepsia, Gastritis, Catarrh of the Stomach, or any Stomach Misery R. E. McRoberts & Son is authorized to refund your money if you are dissatisfied with the results obtained from MI-O-NA. Price 50 cents.

Man And Horses Stand Fall Work Better.

As a general thing during the late fall and early part of the winter the farmer and his teams are more or less idle and both will be better off by doing an easy day's work plowing. The weather being cool both man and team can stand the work better, and every furrow plowed at this time is that much less to be done in the rush of spring work.

Fall plowing has much more to recommend it than the advantages of being ready to plant when spring arrives, although this is worth while. The gain in fertility due to increase of vegetable matter in the soil and the added moisture derived from the winter precipitation are sufficient reasons for fall breaking.

ENDORSED AT HOME.

Such Proof As This Should Convince Any Lancaster Citizen.

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow-citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or he would not do so. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Lancaster adds one more to the many cases of Home Endorsement which are being published about Doan's Kidney Pills. Read it.

Frank Hibbard, Water St., Lancaster, Ky., says: "My experience with Doan's Kidney Pills has been such that I do not hesitate to advise their use. I had weak kidneys. Their action was irregular and often painful. My back pained me. It was then that I used Doan's Kidney Pills. They fixed me up in good shape. The pains left it and my kidneys became normal."

For sale by all dealers. Price 50cts. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Bumper crops are literally driving Montana farmers out of house and home, according to reports from the Northwest, many of the prairie homes of the homesteaders being filled to the second story windows with grain that cannot be moved on account of car shortage.

Somewhat Contradictory. In America, says the Louisville Courier-Journal, a school teacher works, upon the average, for about half as much as a bricklayer, and has to tell the boys that education is a necessity if they would get on in life.

Catarrh Sufferers Astonished

Booth's HYOMEI, the Soothing Healing Germ Destroying Air Gives Instant Relief.

If you already own a HYOMEI hard rubber inhaler you can get a bottle of HYOMEI for only 50c. The complete outfit, which includes inhaler, is \$1.00 and is sold by R. E. McRoberts & Son on money back plan.

With every bottle of HYOMEI comes a small booklet. This book tells how easy and simple it is to kill Catarrh germs and end Catarrh by just breathing into the lungs over the Catarrh infected membrane the powerful yet pleasant antiseptic air of Eucalyptus from the inland forests of Australia. This book tells about the HYOMEI vapor treatment for stubborn Catarrh, Croup, heavy Colds and Sore Throat, and other interesting facts.

Burley Tobacco Growers Boost Your Own Brands

We, as you know, are using your choicest tobacco in the brands of Strater Bros.' Branch, and you know that nobody grows better tobacco than you do. You know how we manufacture, so you know that these brands are perfection. Now we want you to help us sell these brands this year even better than our best previous years. The reasons you should so help are as follows:

You Are Part Owner

The fact that you grow the tobacco makes you part owner of all these brands. Every time that you sell you profit. Every word that you say in favor of any helps to increase those sales. Every brand that you buy for your own use helps make those profits better. All our interests—your interests and ours—are pooled in these several tobaccos. It is logic that you should bend all of your efforts, however small, in the selling.

Tell Every Friend

Tell your friends of these brands. Tell them what you know of the tobacco. Tell them you grow it, smoke it and give it yourself, so you know. Tell them it comes from Kentucky, from the center of the richest Burley sections. Let them know it's the crown of your crops and that they can buy these brands from "most any dealer, because dealers know that these brands are the best they can buy."

The United Power of 40,000 Buyers

40,000 men in a section wield an enormous buying influence. If all ask for these brands when they buy tobacco there results a gigantic sale. And big sales are the best advertising known.

To Dealers! Dealers throughout the United States know these famous tobaccos. They are Nation-wide sellers—popular brands. They are helping these dealers to prosper. They are made from the pick of the famous crops of 40,000 growers. Every one of these growers is boosting them all. So are all of their friends. This method is bringing the profits to dealers—to those who sell these brands. Are they working for you? Here are the mild, fragrant smoking brands—GOLDEN GLOW—PENNY POST—FULL PAY. Here are the delicious chewing brands—INDEX—BY JOE TWIST—CUP—DAY'S WORK—ON THE SQUARE—TORCHLIGHT—STRATER'S NATURAL LEAF. Put them into your stock. See how they sell.

NOTES FROM MEADOWBROOK FARM

Give the cows a name.

Mulch the strawberries.

Baled corn fodder is new.

Use a low wagon in the orchard.

Clean out the old nesting material
and burn it.

Milk to the last drop, for the last
milk is the best.

Sweet clover can be used as a sub-
stitute for red clover.

A single drop of milk contains five
million globules of butter fat.

When corn husking time is at hand,
the corn ought to be fairly well dried
out.

Hogs will husk corn for nothing.
The hired man wants four cents a
bushel.

It is not what is eaten but what
is digested that furnishes strength and
muscle.

Vitality is a very important charac-
teristic in the dairy cow or any other
farm animal.

Hogging down corn looks like a
lazy man's way, but it is a money
maker. Try it.

A hen can't be a very respectable
hen if she is full of lice—help her by
cleaning up the roosts.

In the poultry quarters, be careful
to keep filth from accumulating and
keep fowls free from lice.

Give the ducks clean water every
time you feed them because a duck
always drinks while eating.

Don't let a frost scare you into
gathering the cabbages. Leave them
out until freezing weather comes.

The seed of broom corn has con-
siderable feeding value. It may be
removed, dried or put in the silo.

If your sweet corn seed is mixed
with field corn, better feed it to the
chickens and buy new next spring.

The coming of woven wire fences
will help keep down the weeds along
the roadsides in a rather roundabout
way.

Good shelter will make feed go far-
ther and this is a good time to see
that barns and sheds are made tight
for the winter.

The beef supply cannot be much in-
creased inside of two years. This
means high cattle prices for at least
two years more.

Whether brood mare or gelding it
is the healthy, well fed horse that ex-
hibits the greatest endurance and no-
bility in harness.

After corn passes the proper stage
at which it should be converted into
silage or fodder, it deteriorates very
rapidly in quality.

In the horse for active service the
breast should not be over medium
width and the forelegs should be rea-
sonably close together.

Both cane and kafir are not hurt
much for feed if they are caught by
frost provided they are cut before
much rain falls on them.

A square breasted, well muscled horse
will stand more work and more hard-
ship than two lank, loosely-jointed ones,
and not require as much power as one
of them.

When the calf is just learning to
eat bolt oatmeal or cornmeal into a
thin mush, add a quart of it to a pail
of skim milk and the calves will suck
it up with great relish.

Nothing should be more gradual
than the development of the power
of a draft horse or the speed of a trot-
ting horse and in but few other ways
are horses more permanently injured
than in pushing their development
too rapidly.

If you have several kinds of rough
feed on hand it will be a good plan to
mix them up in feeding. Stock like a
change of feed as well as you do and
if their breakfast can be of one kind
and their supper of another, so much
the better.

One reason why some men do not

and sheep profitable is because they
have those which would not do well
for anybody. Turn off every head of
that sort and get some first-class
sheep, and you will soon find yourself
making some good clean money from
them.

Pick all fruit carefully.

Plow for corn in the fall.

Start a war on poultry pests.

Store seed corn in a dry place.

Clipping horses' legs is not a good
practice.

Excessive sweating in a horse indi-
cates weakness.

The first and greatest law of breed-
ing is "like begets like."

Many imported horses are a "sell"
to whoever buys them.

Moderate frosts improve rather
than harm the cabbage.

Why not shed farm machinery, the
same as the field products?

Store some dust for the chickens'
dust bath during midwinter.

It is only recently that sweet clover
has been used for feeding livestock.

Silage and alfalfa combined make
the foundation of the best dairy ra-
tion.

The scrub cow appears in every
herd, whether it be a pure bred or a
grade herd.

See that the ladders are safe before
using them. Unsafe rounds may mean
broken legs.

The separator is a helpful factor in
establishing the uniformity of the fin-
ished product.

When a heifer is first fresh it is es-
pecially important that all the milk
be drawn from her.

How much does it cost to have that
machinery standing out in the weath-
er? Shedding is cheap!

No stock grower can afford to have
his animals burn grain for fuel to
keep themselves warm.

Sweet potatoes should be dried and
then stored in boxes of sand before
the frost touches them.

Development of a flock and greatly
increased profits cannot be secured
without careful breeding.

Letting butter drain well before
salting is one of the little things that
makes for better quality.

The use of the pure-bred sires has
brought about a much better quality
of stock kept on the farms.

Keep the hogs quiet, clean and
comfortable if you expect the best
gain from the food supplied.

Selling butter or cream from the
farm robs the soil of less fertility than
does any other farm product.

The cost of feeding an animal in-
creases with its weight, but not in
direct proportion to its weight.

Hurry all cement work to a finish
now, so it will have time to set well
before freezing cracks and damages
it.

The milk pail with a flaring top
has been ruled out. Hooded pails
with small openings are much more
dirt-proof.

Are you keeping a lot of horses for
which you have no special need? Let
the other fellow have them at pre-
sent prices.

See to it that the colt does not be-
come constipated. A small dose of
castor oil is a good thing to get the
bowels started.

Too often the dairy, poultry and
hog work are side lines on the farm.
Make them the main line and they
will lead you to profit.

Fill the producing cows up on clover
hay or alfalfa if you can get it
instead of fodder or other coarse stuff
containing low feed values.

Hogs do not waste corn in the field
except in muddy weather. They gain
faster, more evenly and more econom-
ically in the corn field than in the dry
lot.

Good bright corn fodder is worth
more for dairy cows than pure tim-
othy hay but both should be fed along
with clover or alfalfa to get the best
results.

At the Iowa station corn and soy
beans hogged down produced 15.7
pounds of pork per bushel of corn.
At 8 1/2 cents per pound that is \$1.23
per bushel for the corn.

When the pumpkins and squashes
are gathered, do not put them in the
cellar at once. They will keep much
better if stored in some dark outbuild-
ing until real freezing weather comes.

The Value Of A Pure Bred Bull.

"There is, perhaps, no other impor-
tant factor connected with beef pro-
duction that is as often disregarded as
that of the selection of bulls to head
the herds of grade cows from which
are produced the feeding cattle of the
country. It is still true that the "bull
is half the herd," and he may be more
than half the herd if he is a choice in-
dividual backed up by good ancestry.
A brief discussion of the importance of
using great discretion in the selection
of a sire should tend to a more active
demand for the better grades of re-
gistered beef bulls. In the first place,
the writer wishes to go on record as
saying that the breeder of feeding cat-
tle, whether he fattens them himself
or sells them to cattle feeders, cannot
afford to use a common bull of indis-
criminate breeding. There can be no
doubt about that. Feeding cattle that
are well bred and possess quality en-
ough to weigh one thousand pounds or
better at two years old are worth all
the way from \$40 to \$50 per head, de-
pending upon their individual quality
and condition. Such feeding cattle
can be produced from grade beef cows
mated with choice beef bulls. Com-
mon and inferior feeding cattle that
are produced from common cows and
grade or scrub bulls frequently attain
an age of three or more years before
they reach one thousand pounds in
weight. Such feeders at such an age
and weight are worth from \$27. to \$30.
each. The lesson should be plain that
it does not pay to use an inferior bull
that sires the steer that pays the own-

er but nine dollars per year for his
keep as against the one that pays
twenty-two dollars to twenty-five dol-
lars per year. It may be claimed that
the fault is not altogether with the
bull. We grant that. But suppose
the cows are the same in either case,
the wellbred bull will produce feeding
cattle which will grade at least two
grades higher than the feeding cattle
produced by the mediocre bull.

"There is usually about thirty-five
cents per hundred-weight difference in
price between one grade of feeding
cattle and the next higher grade. If
the well-bred bull raises the grade of
his offspring two grades, he adds to the
value of each animal he sires seventy
cents per hundred-weight, or to the
one thousand pound steer seven dollars.
Properly cared for, a bull should sire
from forty to fifty calves per year.
For sake of argument, suppose we say
he sires forty. If he should increase
the value of each of his offspring but
five dollars, a very conservative esti-
mate, he earns at the least \$200.00 with
his first crop of calves. It is no exag-
geration to say that as compared with
the use of an inferior bull the regis-
tered beef bull pays for himself the first
year."—Herbert W. Mumford, Chief
Division of Animal Husbandry, Uni-
versity of Illinois.

As the cold weather approaches the
separator bowl should be filled with
hot water before the milk is allowed
to run through it. When it is thor-
oughly warm skimming will be more
efficient.

Aerate new milk as soon as possi-
ble after it is drawn, but do not do
this in a stable. As good a way to
do this as any is to pour the milk
slowly from one pail to another for a
few minutes. This drives off bad
odors and saves the fine butter flavor.

THE OUT-LOOK.

Those who are wise will buy brood sows this fall. There are good
reasons for this, the shortage in all meat producing animals being greater than
at any time during the past ten years.

Besides, figures from good authorities show that beef cattle have de-
creased almost ten million head. The number of sheep 96,000,000 and hogs
in proportion; then add to this the depletion on account of cholera, we
have only one conclusion to reach, that the world is short on all meat animals
and the supply will fall short of the demand by millions of pounds. Already
the price of hogs is high. The supply of breeding hogs will likely prove in-
adequate for the demand and hence the advisability of prompt action in pro-
curing your brood sows. Get every one you can care for, get good ones
that are immune and you need wait only a short time for your profits. The
man who begins the season of 1913 without a good bunch of brood sows is over-
looking the best opportunity that ever came to the tiller of the soil.

We have on hand and for sale a fine selection of Duroc Gilts, which have
been bred to our immune boar which came from the Hillhurst Farm at Leban-
on. See them County Court Day in Lancaster.
